<u>Cl</u>	13/ Worksheet/Limiting Reagent	t Name:	
Show all work. Write the equation and balance it where necessary.			
1.		f grams of ammonia, NH <sub>3</sub> , which can be obtained from t? Calculate the grams of excess reagent left. (Ans: 56.7)	
2	What is the theoretical yield of ch	chromium that can be produced by the reaction of 40.0 g	of Cr2O2
۷.		late the percent yield if 13.9 g of product is produced. C
